Senior Architectural Technologist

Hiring organization

Thibodeau Architecture + Design

Description

Thibodeau Architecture + Design (TAD) has an exciting opportunity for a full-time senior-level Architectural Technologist with working experience in a North American architectural office. This position is regularly based in our Vancouver office with an option to work from home for a portion of the work week.

We offer a full range of personalized architectural and interior design services to customers across Canada. Our firm specializes in building renovations, interior design, and sustainable and accessible design.

For more information about our company, please visit our website: www.goTAD.ca
We are looking for a highly collaborative person with strong experience in leading a team through the construction documentation and construction administration phases of a project.

Job Location

Vancouver

Date posted

November 13, 2024

Responsibilities

What You'll Do:

- Production and review of construction documents, including drawings, specifications etc.
- Collaborate with project managers and other team members to develop and produce architectural drawings and construction documents.
- Review and coordinate consultants' documents.
- Ensure compliance with building codes and regulations.
- Conduct site visits and surveys to gather necessary information for project development.
- Communicate effectively with clients, contractors, and other stakeholders.
- You will be tracking the time spent on projects to meet objectives.
- Ensure project deliverables are submitted on time.

Qualifications

Who You Are:

- You have a demonstrated ability to lead and effectively distribute work to an architectural team.
- You have 8 to 15 years of relevant experience in an architectural office and you've led teams in another architectural office within North America.
- You have good knowledge of building envelope principles.
- You have knowledge of DP and BP submissions.
- You have a strong ability to detail various building components.
- Quality is important to you, and it shows through your quality control and quality assurance protocols.
- You feel very comfortable conversing with clients both with written and spoken English. (French is an asset).
- Must be willing to work full-time in office during probationary period and minimum two days a week upon completion of probation.
- Registered or eligible to be registered with the AIBC.
- You consider yourself an advanced user of Revit and AutoCAD to the

degree that you can train others.

- You enjoy mentoring junior team members.
- You are fully proficient with MS Word, MS Excel, MS Project, Teams and Outlook.
- You have current working knowledge of the VBBL, BCBC and Fire Codes.
- People that have worked with you before know you for your excellent communication and customer centric skills.
- You have a demonstrated ability to manage projects and exceptional organizational skills, time management skills and attention to detail.
- You ideally have experience working on commercial, tenant improvement and healthcare projects.

Personal Skills

- Passionate, creative, autonomous and a sense of initiative.
- Positive, professional, a team player with a sense of responsibility.

Job Benefits

WORKING CONDITIONS & BENEFITS

- Open space, warm and bright with a dynamic and diversified team made up of professionals with varied experiences, both in our Montreal and Vancouver offices.
- Incentive based bonus program.
- Group insurance program, matching group RRSP.
- Professional development program.
- Permanent position: 40 hours per week.

The salary for this position will be determined based on skills and years of experience, within the range of \$80,000. – \$90,000.
